

Short North Design Guidelines – Stakeholder Interview Questions

February 2010

This questionnaire was prepared for use in the Short North Design Guidelines process. This effort is focused on the development of unified design guidelines for application on both sides of High Street between I-670 and Fifth Avenue. Responses will be summarized for use by the project Working Group and staff. Your time and insights are appreciated.

- 1) In what capacities are you connected to the Short North - resident, business owner, commission member, developer, etc.?
- 2) Have you presented applications to IVC, VVC or other Columbus architectural review commissions?
- 3) If so, how was the experience?
- 4) Are you familiar with the existing architectural guidelines for VVC/IVC?
- 5) What aspects of the district's physical form are most appealing to you?
- 6) What aspects of the district's physical form are least appealing to you?
- 7) What positive changes have you seen in the corridor with respect to development?
- 8) Any buildings or projects that stand out as particularly good examples of appropriate development for the area? Why?
- 9) Do you see changes or trends you consider problematic or harmful to the district?

- 10) Are some portions of the district better suited to higher intensity projects than others?
- 11) Are there any specific locations in the district where you can see a great opportunity to make improvements in the future?
- 12) What are the issues you think are most important for new guidelines to address?
- 13) Where do you see the district in 10 years?
- 14) Do you have a particular vision for the Short North you would like to share?
- 15) Anything else you want us to be aware of?

Your name: _____

Date: _____
